IMPACT ANALYSIS

This period due to pandemic students were unable to have in house experience of the industry but they got an opportunity in online platform. The students have attended AICTE sponsored online internships and in various other online internships with stipend also. The overall impact of the training based on their technical experience, trainer’s knowledge and exposure gained is given. We found that most of the students used the knowledge in their final year projects; they gained a better industrial exposure in their field which was helpful during their placements and higher studies.
