IMPACT ANALYSIS

Students were encouraged to attend internships in various companies, Government Organizations, Foreign Universities (eg: UNIVERSITI TEKNOLOGI PETRONAS (MALAYSIA)) and in multi disciplinary domains. The overall impact of the training based on their technical experience, ambience, trainer’s knowledge and exposure gained is given. We found that most of the students used the knowledge in their final year projects; they gained a better industrial exposure in their field which was helpful during their placements and higher studies.
